Personal Details

Gender:	Male
Date of birth:	21/December/1968
Place of birth:	Tokyo, Japan
Language:	Japanese and English
Citizenship:	Japan

Current Position

2016.04 – **Professor**, *The Institute of Statistical Mathematics*, Tokyo, Japan

2016.04 – **Professor**, *Statistical Science Program, The Graduate University of Advanced Studies (SOKENDAI)*, Tokyo, Japan

2017.04 – **Visiting Professor**, *National Astronomical Observatory of Japan*, Tokyo, Japan

2016.05 – **Visiting Senior Scientist**, *Kavli IPMU, The University of Tokyo*, Chiba, Japan

Past Academic Positions

2003.02 – 2016.03 **Associate Professor**, *The Institute of Statistical Mathematics*, Tokyo, Japan

2001.04 – 2003.01 **Associate Professor**, *Dept. of Brain Science and Eng., Kyushu Institute of Technology*, Fukuoka, Japan

1998.10 – 2001.03 **Researcher**, *"Information and Human Activity," PRESTO, JST*, Saitama, Japan

1996.04 – 1998.09 **Special Postdoctoral Researcher**, *RIKEN*, Saitama, Japan

1996.01 – 1996.03 **Research Fellow**, *JSPS (PD)*, Tokyo, Japan

Visiting Positions

2024.06 **Visiting Academic**, *GIPSA-Lab*, Grenoble, France

2022.05 – 2022.07 **Theoretical Science Visiting Program**, *OIST*, Okinawa, Japan

2010.04 – 2016.03 **Adjunct Associate Professor**, *Tokyo Institute of Technology*, Kanagawa, Japan

2008.04 – 2008.10 **Visiting Academic**, *The University of Melbourne*, Melbourne, Victoria, Australia

2007.10 – 2008.04 **Visiting Academic**, *Australian National University*, Canberra, ACT, Australia

2004.04 – 2006.03 **Visiting Researcher**, *RIKEN*, Saitama, Japan

2003.04 – 2004.03 **Visiting Academic**, *Gatsby Computational Neuroscience Unit, UCL*, London, UK, under the fellowship between JSPS and the Royal Society

Education

1993.04 – 1996.03 **Doctor of Engineering**, *The University of Tokyo*, Tokyo, Japan

Major Mathematical Engineering and Information Physics

Thesis Title	Estimating the structure of the sources
Supervisor	Kaoru Nakano
1991.04 – 1993.03	**Master of Engineering**, *The University of Tokyo*, Tokyo, Japan
Major	Mathematical Engineering and Information Physics
Thesis Title	Construct the structure of Hidden Markov Models
Supervisor	Kaoru Nakano
1987.04 – 1991.03	**Bachelor of Engineering**, *The University of Tokyo*, Tokyo, Japan
Major	Mathematical Engineering and Information Physics

Academic Honors and Awards

2025.07 **The International Congress for Basic Science 2025 Frontiers of Science Award in Theoretical Computer & Information Sciences**,
Recipients: The Event Horizon Telescope (EHT) Collaboration

2021.01 **Royal Astronomical Society 2021 Group Achievement Award**,
Recipients: The EHT Collaboration

2020.05 **2020 Einstein Medal**,
Recipients: The EHT Collaboration

2019.09 **2020 Breakthrough Prize in Fundamental Physics**,
Recipients: The EHT Collaboration

2019.05 **National Science Foundation Diamond Achievement Award**,
Recipients: The EHT Collaboration

2001.09 **Japan Neural Network Society Best Paper Award**,
S. Ikeda and K. Toyama "Independent component analysis for noisy data–MEG data analysis," Neural Networks, 13(10), 2000

Invited Talks (talks in English)

2025.06.06 **The imaging of the supermassive black hole shadows with EHT**, *International Symposium on Computational Sensing 2025*, Hotel Koener, Clervaux, Luxembourg

2024.06.13 **The imaging process of the blackhole shadow with EHT**, *Ricochet days in Lille*, Lille University, France

2024.03.05 **Astronomy and data science**, *International Workshop KEK-Cosmo 2024*, KEK, Tsukuba, Ibaragi, Japan

2024.01.09 **Data science for astronomy**, *Machine Learning at High Energy Physics workshop*, KEK, Tsukuba, Ibaragi, Japan

2023.07.14 **Imaging of ALMA telescope with self-calibration**, *EAS 2023*, Kraków, Poland

2023.06.21 **Data science and imaging the black hole shadows**, *RIKEN AIP seminar*, RIKEN center for AIP, Tokyo, Japan

2023.03.03 **Astronomy and data science: Building astronomical claims with modern data science**, *Interdisciplinary Science Conference in Okinawa (ISCO 2023) — Physics and Mathematics meet Medical Science —*, OIST, Okinawa, Japan

2022.09.13 **Data science and imaging the black hole shadow**, *International online IAU-IAA Astrostats and Astroinfo seminar*, online

2022.02.08 **Toward astro data science**, *Galaxy Evolution Workshop 2021*, NAOJ, Tkyo, Japan

2020.02.20 **Imaging supermassive blackhole with the Event Horizon Telescope**, *The 21th Interdisciplinary Exchange Evening*, RIKEN, Saitama, Japan

2019.10.16 **Data science and astronomy: how it worked for blackhole shadow imaging**, *The cosmos at high energies: exploring extreme physics through novel instrumentation*, Kavli IPMU, Chiba, Japan

2018.09.28 **Optimization theory and astronomy**, *3rd IMI-ISM-ZIB MODAL Workshop on Challenges in Real World Data Analytics and High-Performance Optimization*, GRIPS, Tokyo, Japan

2018.01.11 **Statistical signal processing for astronomy**, *Kavli IPMU-Berkeley Symposium Statistics, Physics and Astronomy*, Kavli IPMU, Chiba, Japan

2017.06.05 **Data scientific approach for astronomy**, *The Third Joint Symposium of Osaka CTSR, RIKEN iTHES/iTHEMS, Kavli IPMU,"Deep Learning and Physics"*, Osaka Univ., Osaka, Japan

2016.06.17 **Cosmological parameter estimation and Fisher information matrix**, *IGAIA IV (Information Geometry and its Applications)*, Liblice, Czech Republic

2016.05.31 **Event classification**, *PhyStat-ν Workshop on Statistical Issues in Experimental Neutrino Physics*, Kavli IPMU, Chiba, Japan

2015.12.15 **Sparse modeling for astronomical data analysis**, *International Meeting on "High-Dimensional Data Driven Science" (HD3-2015)*, Mielparque-Kyoto, Kyoto, Japan

2015.09.25 **Sparsity and information processing**, *MEIS2015 : Mathematical Progress in Expressive Image Synthesis*, Kyushu Univ., Fukuoka, Japan

2014.04.11 **Optimization of probability measures and information geometry**, *2nd International Workshop on Information Geometry and Affine Differential Geometry*, Shanghai, China

2013.08.28 **Optimization of probability measure and its applications in information theory**, *WITMSE2013*, Univ. of Tokyo, Tokyo, Japan

2010.09.23 **Channel capacity problem and optimization of probability measure**, *Mathematical Sciences and Their Applications*, Nagano, Japan

2010.08.03 **Channel capacity and the predictive distribution**, *Information Geometry and its Applications III*, Leipzig, Germany

2009.08.31 **Mean field approximation methods and information geometry**, *Physics of Algorithms '09*, Santa Fe, USA

Grants

2024 – 2029 JSPS Kakenhi, Grant-in-Aid for Specially Promoted Research, 24H00004

Formation processes of heavy elements in the early universe elucidated by superconducting nanoelectronics, large-scale numerical simulations, and data science

Co-Investigator (PI: Kotaro Kohno)

2023 – 2030 JSPS Kakenhi, International Leading Research, 23K20035

Formation processes of heavy elements in the early universe elucidated by superconducting nanoelectronics, large-scale numerical simulations, and data science

Co-Investigator (PI: Kotaro Kohno)

2020 – 2023 JSPS Kakenhi, Grant-in-Aid for Scientific Research (B), 20H01951

New imaging method for ALMA with sparse modeling

Principal Investigator

2020 – 2022 JST, AIP Acceleration Research

Cosmology with big astronomical data using innovative image analysis methods

Co-Investigator (PI: Naoki Yoshida)

2019 – 2024 JSPS Kakenhi, Fund for the Promotion of Joint International Research (B), 19KK0081

Exploring dynamic pictures of supermassive black holes with movie reconstruction from event-horizon-scale observations

Co-Investigator (PI: Mareki Honma)

2017 – 2020 JSPS Kakenhi, Grant-in-Aid for Scientific Research (A), 17H01116

Development of commensal FRB search engine for VERA and observational studies of transient sources

Co-Investigator (PI: Mareki Honma)

2014 – 2019 JST, CREST, Research Area, "Big Data"

Statistical computational cosmology with big astronomical imaging data

Co-Investigator (PI: Naoki Yoshida)

2013 – 2017 MEXT Kakenhi, Grant-in-Aid for Scientific Research on Innovative Areas, "Initiative for high-dimensional data-driven science through deepening of sparse modeling," 25120008

Approach to sparse modeling based on compressed sensing planned

Co-Investigator (PI: Toshiyuki Tanaka)

2013 – 2015 MIC, SCOPE

Research and development of a small-degree-of-freedom interface for multi-degree-of-freedom remote-robot control

Co-Investigator (PI: Jun Morimoto)

2012 – 2014 JSPS Kakenhi, Grant-in-Aid for Scientific Research (C), 24560490

Communication channel capacity and optimization of probability measure

Principal-Investigator

2010 – 2013 JSPS Kakenhi, Grant-in-Aid for Scientific Research (B), 22300098

Mathematical foundation of efficient algorithms for statistical inference

Co-Investigator (PI: Kenji Fukumizu)

2009 – 2012 JSPS Kakenhi, Grant-in-Aid for Scientific Research (B), 21300092

Extraction of synergetic structure of whole body movements and its application to human assisting system

Co-Investigator (PI: Yutaka Sakaguchi)

2007 – 2009 JSPS Kakenhi, Grant-in-Aid for Scientific Research (C), 19500249

Geometric study on statistical learning and computation based on graphs

Co-Investigator (PI: Kenji Fukumizu)

2006 – 2009 MEXT Kakenhi, Grant-in-Aid for Scientific Research on Priority Areas, "Deepening and expansion of statistical mechanical informatics," 18079013

Theoretical analysis and information engineering application of approximate inference methods

Principal-Investigator

2004 – 2006 JSPS Kakenhi, Grant-in-Aid for Young Scientists (B), 16700227

Information geometrical analysis of the cluster variational method

Principal-Investigator

2004 – 2007 JSPS Kakenhi, Grant-in-Aid for Scientific Research (B), 16300088

New statistical methodology for genome diversity analysis

Co-Investigator (PI: Shinto Eguchi)

2003 – 2005 MEXT Kakenhi, Grant-in-Aid for Scientific Research on Priority Areas, "Statistical-mechanical approach to probabilistic information processing," 14084208

Analysis of belief propagation algorithms based on information geometry

Co-Investigator (PI: Yoichi Motomura)

2002 MEXT Kakenhi, Grant-in-Aid for Scientific Research on Priority Areas, "Statistical-mechanical approach to probabilistic information processing," 14084208

Analysis of belief propagation algorithms based on information geometry

Principal-Investigator

1998 – 2001 JST, PRESTO

Mathematical analysis of the EM algorithm and its applications in engineering

Principal-Investigator

Teaching

Cources

2020, 2022, 2024, 2025 **Introduction to Computational Inference**, *Department of Statistical Science, GUAS*, 4 classes, Japanese

2022 **Special Lecture on Radio Astronomy I**, *Astronomical Institute, Tohoku University*, Intensive course, Japanese

2021 **Observational Astronomy, Advanced Course II**, *Department of Astronomy, The University of Tokyo*, Intensive course, Japanese

2020 **Special Lecture on Astronomy IX**, *Department of Astronomical Science, SOKENDAI*, Intensive course, English

2020 **Special Lectures on Mathematical Engineering and Instrumentation Physics**, *Department of Mathematical Engineering and Instrumentation Physics, The University of Tokyo*, 1 class, Japanese

2018 **Interstellar Physics Special Lecture**, *Department of Physics, Nagoya University*, Intensive course, Japanese

2018 **Lecture Series of Data Science in Physics**, *Graduate School of Arts and Sciences, The University of Tokyo*, Intensive course, Japanese

2017 **Lecture Series of Data Science in Astronomy**, *Graduate School of Science, The University of Tokyo*, Intensive course, Japanese

2011, 2012, 2013, 2015 **Advanced Topics in Mathematical Information Sciences II**, *Interdisciplinary Graduate School of Science and Engineering, Tokyo Institute of Technology*, 2 classes, English

2012, 2013 **Compressed sensing: Theory and Applications**, *Department of Informatics, Kyushu University*, Intensive course, Japanese

2005 **Lecture Series of Computational Mathematics 1**, *Graduate School of Information Science, Nagoya University*, Intensive course, Japanese

2001, 2002 **Brain Style Pattern Recognition**, *Department of Brain Science and Engineering, Kyushu Institute of Technology*, Regular course, Japanese

Ph.D Students

Supervise Yuichi Shiraishi (Graduate University of Advanced Studies)

Masatoshi Hamada (Graduate University of Advanced Studies)

Co-supervise Shota Takahashi (Graduate University of Advanced Studies)

Jin Zou (Graduate University of Advanced Studies)

Academic Service

International Conference

2026.03 **Organizing Committee**, *Workshop on Data science for inverse problems and sensing*, ISM, Tachikawa, Tokyo, Japan

2025.03 **Scientific Organizing Committee**, *Study of the Universe by Line Intensity Mapping Experiments (SUBLIME 2025)*, Tokyo, Japan

2025.03 **Organizing Committee**, *Further Developments of Information Geometry 2025*, ISM, The Univ. Tokyo, Tokyo, Japan

2024.10 **Scientific Organizing Committee**, *Data Oriented Astronomy*, The Univ. Tokyo, Tokyo, Japan

2006.03 **International Program Committee**, *6th International Symposium on Independent Component Analysis and Blind Source Separation*, Charleston, USA

2005.12 **Local Organizing Committee**, *2nd International Symposium on Information Geometry and its Applications*, The Univ. Tokyo, Tokyo, Japan

2004.10 **Technical Committee**, *ISCA Tutorial and Research Workshop on Statistical and Perceptual Audio Processing*, Jeju, Korea

2003.04 **International Program Committee**, *4th International Symposium on Independent Component Analysis and Blind Source Separation*, Nara, Japan

Domestic Conference

2023.03 **Organizer**, *Approaches for Inverse Problems*, ISM, Tachikawa, Tokyo

2022.10 **Organizer**, *Data Scientific Methods in Astronomy*, ISM, Tachikawa, Tokyo

2019.05 **Organizer**, *Data Scientific Methods in Astronomy*, ISM, Tachikawa, Tokyo

2017.06 **Organizer**, *Workshop on Minkowski functionals* , Kavli IPMU, Kashiwa, Chiba

2017.05 **Organizer**, *Data Scientific Methods in Astronomy*, ISM, Tachikawa, Tokyo

2015.05 **Organizer**, *Statistical Methods and Astronomy*, ISM, Tachikawa, Tokyo

2014.12 **Organizer**, *Information Geometry for Machine Learning*, RIKEN, Wako, Saitama

2014.03 **Organizer**, *Towards Foundation of Statistical Methods for Medical Image Processing*, ISM Research Collaboration, ISM, Tachikawa, Tokyo

2013.03 **Organizer**, *Optimization of Probability Measure and Communication Channel Capacity*, ISM Research Collaboration, ISM, Tachikawa, Tokyo

Editorial Board

2025 **Special Issue Managing Editor**, *Information Geometry*, Springer, Special issue on "2025 Further Developments of Information Geometry"

2018 – **Associate editor**, *Information Geometry*, Springer

2008 – 2017 **Associate editor**, *Annals of the Institute of Statistical Mathematics*, Springer

2007 **Editor of featured section**, *Special Issue: Information Geometry and Its Applications, Annals of the Institute of Statistical Mathematics, Vol.59. No.1*, Springer

2006 – 2013 **Editor**, *Neural Networks*, Elsevier

2005 – 2014 **Associate editor**, *IEEE transactions on Neural Networks and Learning Systems*

2005 – 2008 **Co-editor**, *Annals of the Institute of Statistical Mathematics*, Springer

Journal Reviews

IEEE transactions (Biological Engineering, Communications, Information Theory, Neural Networks, and Signal and Audio Processing), IEEE Proceedings, Neurocomputing, IEICE transactions, Signal Processing, Neural Networks, Physical Review Research, Publications of the Astronomical Society of Japan, Astronomy & Astrophysics, The Astronomical Journal, Journal of the Royal Statistical Society B, Monthly Notices of the Royal Astronomical Society, Information geometry, Entropy, Journal of Machine Learning Research, Nature Methods

Conference Reviews

Artificial Intelligence and Statistics, Neural Information Processing Systems (NIPS) (1999–2015), International Conference on Machine Learning (ICML) (2007), A series of ICA (Independent Component Analysis and Blind Source Separation) conferences, IEEE International Symposium on Information Theory (ISIT), IEEE Information Theory Workshop (ITW), IEEE International Joint Conference on Neural Networks (IJCNN), International Conference on Artificial Neural Networks, International Conference on Neural Information Processing (ICONIP 2025)

Administrative Committee

2019 – 2022 **Committee Member**, *Science Advisory Committee*, National Astronomical Observatory of Japan

2015 – 2016 **Examination Committee Member**, *Special Research Fellowship for Young Scientists*, Japan Society for Promotion of Science

2014 – 2015 **Committee Member**, *Technical Committee on Information Theory*, The Institute of Electronics, Information and Communication Engineering
